

KrownedKollectionCo. LLC

FAQs

1. Will the hair blend in with my natural hair?

-YES! Please be mindful that this is a natural color extension. In order for the best blend with your natural hair, it is advised that you have the same color leave out as the color of extensions, rather colored or not.

2. What is the "weft"

-Weft is the stitched hair along the top of the extension. ALL extensions provided by KrownedKollectionCo. has a double weft extension to guarantee fullness. Wefts can be sewn or bonded in to your desired style.

3. Can the weft be cut?

-Yes, but we do not suggest cutting the weft to reinforce you of your long lasting hair, fullness and prevent of shedding.

4. Does the hair shed?

-Manufactured hair is subject to shedding at a minimum when hair is being stitched. Shedding is little to non, which is completely normal. Extreme hair loss that shows less density or volume to your hair is NOT a factor of our hair company. YET, proper maintenance and hair care is extremely important to prevent little to no shedding.

5. How much hair do I need?

-Most traditional installs start at 3 bundles depending on inches and head size. Suggested 3 bundles for 12-18 inch, 3+ bundles for 20-24 inch. 4+ bundles for 26-30 inch.

6. Can I color the hair?

-YES, BUT its highly recommended to get coloring service done by a professional. After hair has undergone the color process, hair is no longer virgin hair anymore. To keep hair at its best without over processing or damaging the hair, please see your nearest professional.
